OYSTER TUBES AND CROWNS

NEW ASSORTMENT

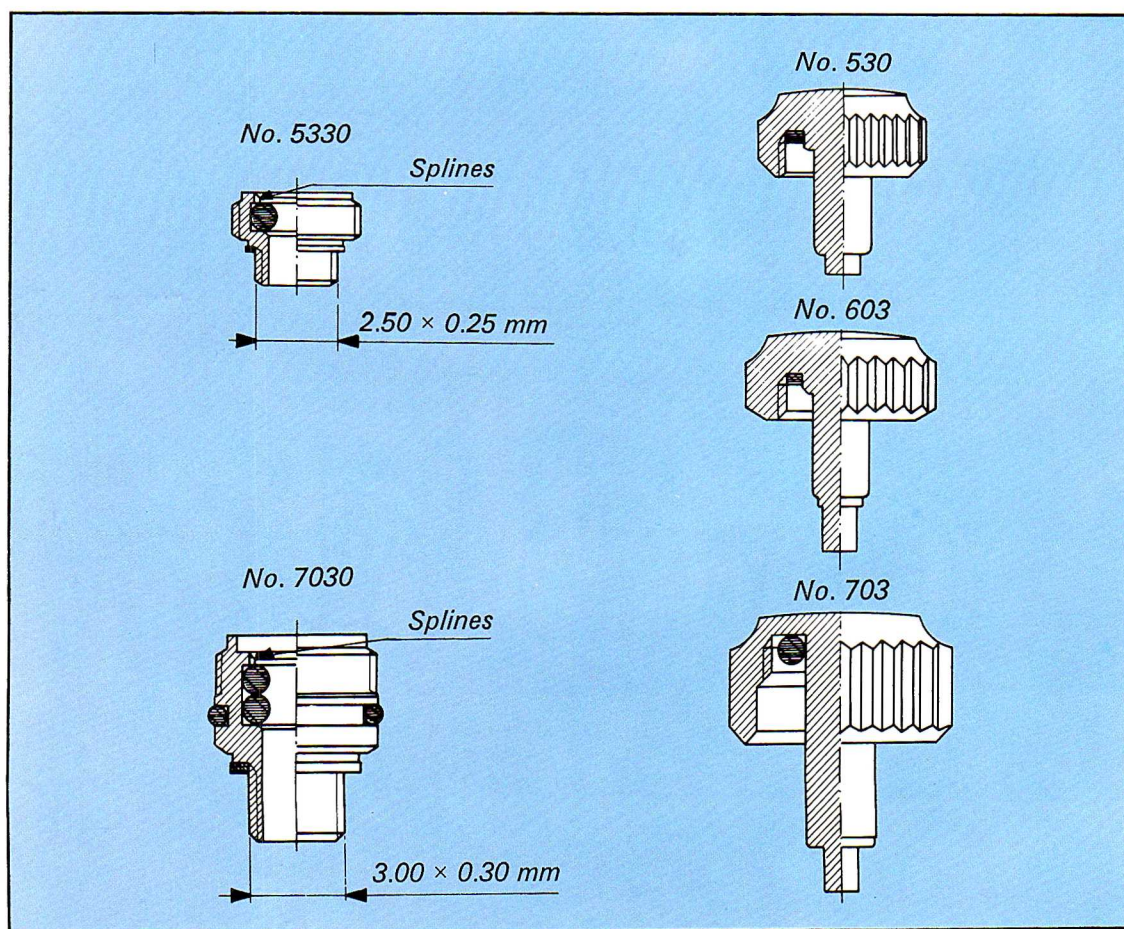

The tubes Nos. 5330 and 7030 with the crowns Nos. 530, 603 and 703 compose the new OYSTER TUBES AND CROWNS assortment.

The tube No. 5330 bears a crown No. 530 or 603 according to the reference of the case. The tube No. 7030 bears a crown No. 703.

The tubes Nos. 5330 and 7030, as also the tube No. 6010, have the splines cut in the crown side part of the tube.

The splines must not be reamed out any longer and can serve for unscrewing.

The new broaches ROLEX Ref. 2095 (22 teeth) and Ref. 2096 (16 teeth) are necessary for fitting these new tubes.

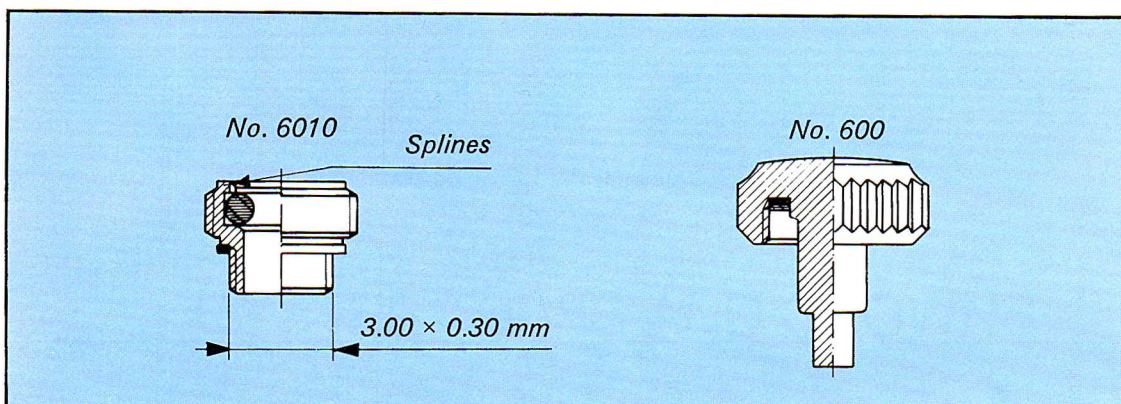

The tube No. 5030 is fitted with a silver washer No. 05310.

The tube No. 7030 is fitted with a Gaco washer No. 06011.

The tube No. 6010 which use is necessary for a transitory period replaces the tube No. 6000 making it possible to equip with a new splined type tube the 6 mm tapped old case bands.

The tube No. 6010 must obligatorily be used with a crown No. 600.

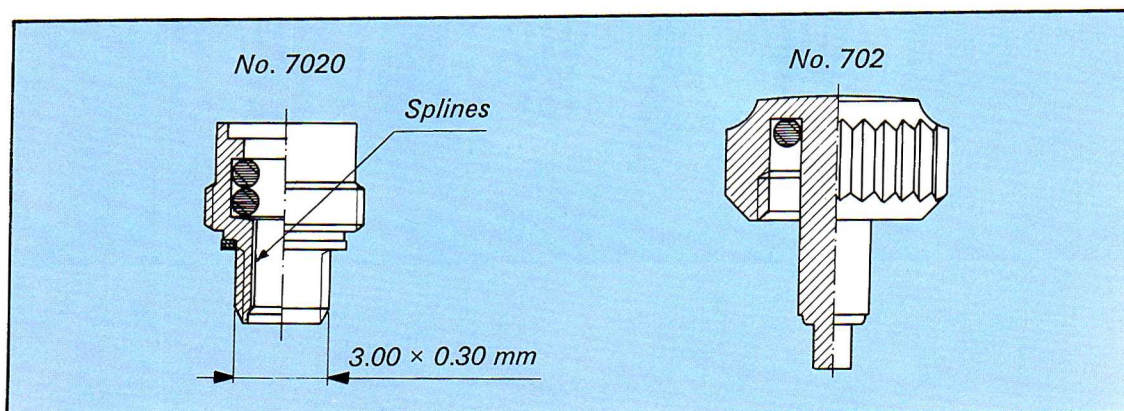

The tube No. 6010 is fitted with a silver washer No. 06020.

INTERCHANGEABILITY

The tubes with old type splines Nos. 5300 and 5310 can be replaced by the tube No. 5330, the tube No. 6000 by the tube No. 6010 and the tubes No. 7000, respectively No. 7020, by the tube No. 7030, for as much as the crown No. 700, respectively No. 702, be also replaced by the crown No. 703.

OLD ASSORTMENT

The tube No. 7020 with old type splines must obligatorily bear a crown No. 702; it is fitted with a Gaco washer No. 06011.

The tube No. 8000 and the crowns Nos. 800 and 801 will only be serviceable to the After Sale Service.
